

VIBE A

Who we are

Founded in 2020

Built by engineers with over 20 years of experience in the Oil & Gas sector — combining deep technical expertise with strategic business acumen.

What We Do

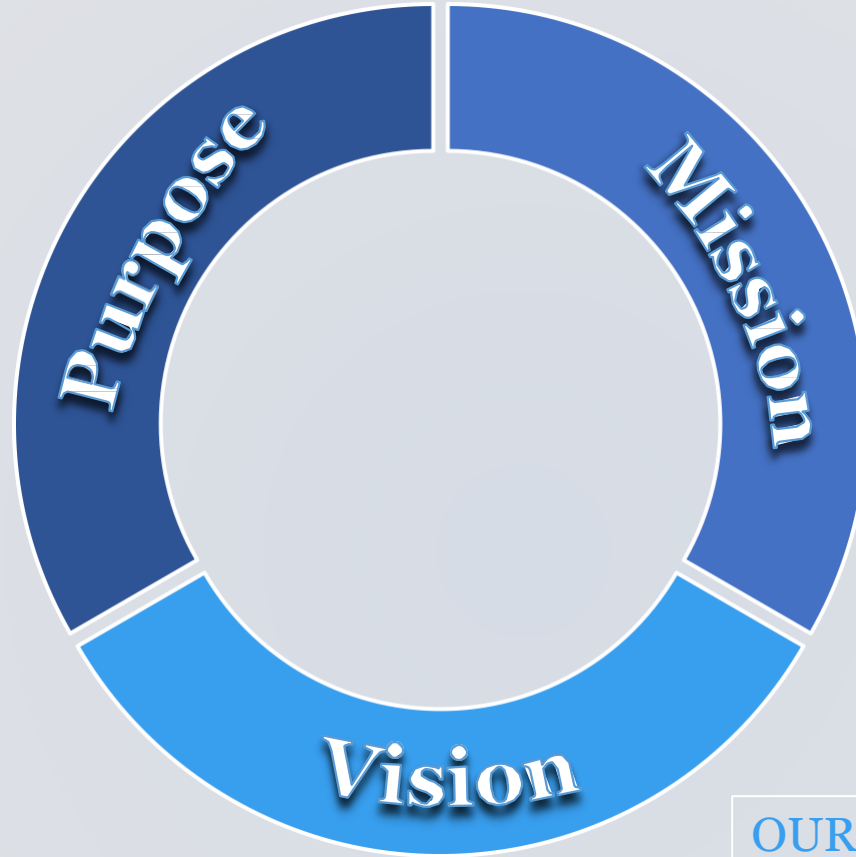

VIBEA provides end-to-end consulting across Business Development, Supply Chain Management, Engineering, Inspection & Expediting, and Staffing— including personnel staffing to General Contractors.

We help organizations improve performance, drive growth, and expand successfully into international markets — all while embracing the challenges of energy transition and sustainability.

OUR PURPOSE

We enhance the competitive advantages of companies to foster business opportunities both in Italy and internationally, thereby contributing to shared social well-being.

OUR MISSION

We aim to become a globally recognized leader in industrial compliance services for plant and infrastructure builders, as well as manufacturing companies.

OUR VISION

We are committed to being at the forefront of supporting the development of new technologies and human capital.

Our Service Lines

Four integrated pillars designed to support industrial companies at every stage of their growth and operations.

Supply Chain Management

Sustainable, ESG-aligned supply chains that reduce costs and add customer value.

Business Development

Guiding clients through internationalization, new markets, and M&A opportunities.

Technical Services

Multidisciplinary expertise in project evaluation, certification, and legal support.

Staffing

Qualified specialists deployed globally for inspection, expediting, and procurement.
